Cordex HP™ 3.0kW Firmware V2.00

Alpha and Outback Energy GmbH is pleased to announce the release of our newest firmware version for the Cordex HP™ 3.0kW rectifier V2.00.

New Features and Improvements:

- Improved PFC reliability during AC disruption
- Improved functionality with generator

Limitations

- CXC-HP controller requires software V6.10 or later.

Upgrading procedure using the Web Browser

1. Navigate to the **Firmware Files** section under the **Modules** menu.
2. Click **Upload Firmware File**.
3. In the Upload File dialog box, click on **Select File**.
4. Select "CXHP_48V_3KW_CAN_v2.00_2020-05-08.ACAN" from the location on your hard-drive, USB flash drive or CD/DVD and click **Open**.
5. Once the firmware is uploaded, click the edit icon in the **File** option of the **Firmware Upgrade** section.
6. Select the newly uploaded firmware from the **File** dropdown in the **Field Details** dialog box and click **Save**.
7. The CXC-HP will automatically detect the module's compatibility with the firmware file. To start the upgrade, click in **Start Firmware Upgrade** in the **Firmware Upgrade** section.

You have now successfully upgraded the Alpha Cordex HP™ 3.0kW rectifier. Thank you for choosing Alpha and Outback Energy GmbH.
